WIEDERHOLD.

Gold mining is not only one of our staple industries, but as yet it may be Custom-made Boot & Sho said to be the most important of our local sources of productive wealth. Strip the country of its mines of gold, and with in the them almost every industry would perish, sommerce be seriously erippled, and the Provincial revenue be reduced to a mere fraction of what is now realized It therefore behooves the Government to use every legitimate means to foster our mining interests, and to remove out of the way every obstacle calculated to interfere with their progress and develop ment. That the Government should realize some share of the advantage aceruing from the working of the mines, no reasonable person will question, but that that object is best met under some of the provisions of the Gold Mining Act now in force, is open to doubt. Part ten of the Act, relating to ditches, and how a property right in water for mining purposes is to be acquired, and the terms upon which it may be held and disposed of, we are informed is felt to be exceedingly arbitrary in the first place, oppressive in the accord place, and thirdly, slike detri-mental to the interests of those engaged in mining pur-nits and to the Government. The 108th clause of the Act, which requires that every application for a grant of water exceeding three hundred inches shall be accompanied by a deinches, shall be accompanied by a deposit of one hundred and twenty-five dollars, to be retained and paid into the Provincial Treasury for the use of Her Provincial Treasury for the use of Her The Best of Wines & Spirits for the Majesty, in the event of the application being granted, although it may seem a small matter so far as the amount is very decided hindrance to the prose cution of works of that charac er. As a matter of revenue to the Government, it is scarcely worthy of a moment's consideration; in fact that exaction taken in connection with the rent of five dollars per annum on every fifty justes of water used for mining purposes when not sold, and when sold the tax of one average day's receipts such month from the sale thereof, instead of increasing the revenue has a tendency in the opposite direction. Instead, therefore, of making these vexations ex- WINES: actions apon enterprising miners in order that they may procure a charter for the privilege of conveying water by means of a duch or flume for the me of miners engaged in working suriferous ground, would it not be a better plan for the Government to demand security from those seeking such privileges that a pro-posed ditch or flume shall be carried and pleted the required distance, and be SITTERS: capable of conveying the full quantity of water specified in the charter? It might also be well for the Government to consider whether as a matter of sound policy it would not be well to do away Whisky; Lochnagar Whisky; Sherry and Port Wine it bulk; Cider in coaks; Bourbon Whisky; Rum, Gin it with the monthly charge for water gether. Were they to do so, the pro-bability is the country would be to a considerable extent a gainer by it. This year, we are credibly informed, had it not been for these exactions of the Government, a ditch would have been constructed on Manson Creek, in the Ominect country, that would have been Consignments of Fruit, Flour, Butter, rethe means of retaining in the country at least one hundred men, who have now left it not to return again. Estimating these men as worth to the country one thousand dollars each, which is if anythe country of one hundred thousand dollars per annum, and all for the paltry gain of a few hundred deliars that would have been realized had the work referred to been carried into execution. Surely such a policy is a penny wise and pound foolish one. We do not see why, if men are possessed of the enterprise and capital to undertake such a work, any hindrance should be thrown in their way by the Govern-ment to prevent their doing so. For want of water a large extent of ground want of water a large extent or ground on Manson Creek that would pay from \$6 to \$20 per day to the hand if water were available, is practically value less, for it cannot be worked without it. The cost Useful Merchandise, supply those diggings with water, was roughly estimated at from ten to twelve thousand dollars, and had it not been for the discouraging exactions of the Government, we are assured the work would have been under taken and pushed through to completion. Now, where there is CHRISTMAS FRUITS nothing to be gained by such a policy, but where the result is both loss of revenue and loss of population, it seems that the wise and proper course for the Government should be to rectify it with the least possible delay. In Omineca there can be no doubt we have an exensive gold-bearing country, and whereever it may be found necessary to construct ditches for the conveyance of water in order to work the mines to advantage, the policy of the Government should be to encourage such undertak ings, not to raise up barriers against their

form. - I take pleasure to inform Mr. E Morion.—I take pleasure to inform Mr. E. Watson's former customers, and particularly the Officers of the Fleet, that I have done all his Watch and Chronometer work for the past four years. As he has left the country, I beg to selicit the direct patronage of his former customers. All watch and fine clock work done for him by me, under one year, will be guaranteed by me. Attention paid also to Letter and Seal Engraving, at moderate prices. G. W. A. Lance, Yates street.

Coffee over the present. The first lives in a rich temple hung with glorious trophles, and lined with tombe, but Fell's Coffee has but one shrine and that is every breakfast rable. Its frame walks the earth like a sprit and cambe found for sale at every respectable dealers in British Columbia. Beware of spurious imitations.

Onnseries Goods.—By next steamer, Tur-ner, Dector and Tunstell will receive a very choice lot of Fancy Goods, for Obristmas and New Year's presents; and real Seal Skin and other Jackets, of latest styles.

The Re-discovery of the Open Polar Sea.

THE EXPLORATIONS OF CAPTAIN HILE SORNSO IN THE SEAS BAST OF SPITSBEBORN.

[From the N. Y. Herald, Mov. 24 ] The second instalment of valuable tidings The second instalment of valuable tidings from the outstanding Polar expedition has just been made public by Dr. Augustus Petermann, of Gotha. The intelligence that new reaches us gives new discoveries in the Arctic Ocean lying east of Spitzbergen, and also northeast of the islands which skirt its easern shores. The new vision of the open Polar Sea, like every former observation of this menterious phenomenon will be of this mysterious phenomenon, will be of universal int-rest. The following is a trans-

the facts :-

Gotsa, Oct. 11, 1872 .- The Polor Search

June toward the western half o: the open sea, had just left the German coast, was already some fifty miles south-east of the islands of

first half of August had been engaged in whale fishing (not exclusively) on the broad Spirghergen bank, which reaches from the Bear Islands over four degrees of latitude beyond a quarter to eleven o'clock. Feat holders who intend to be present should therefore ccupy their seats before that time extending from 181 deg. to 751 deg. north

We are informed that Mr. Dupont, of the fallow of fishing and supplying himself with the figut for life against starvation, had suck-done, and I pray sincerely that on your Majest starvation, the figure of description of description of the figure o discovered that the land masses which, by Captain Altmann had been supposed to be separated by channels into three large islands where ultimately admitted so as to form a continuous though d eply indented island. There were also a number or small outlying islands. On the evening of the 17th August, Captain Johnson again set sail and followed during that night and the two successive days (viz., the 18th and 19th of Auguust) the entire ast and southeast coast of the land, which was everywhere, as well as the open sea far and wide, a holly destitute of ice. The ocean lying toward the east-portheast was also per-

> able from the summit of the bills. Only on the north coast was there any ice. Fuller communications, as soon as possible. wil appear in the Geographische Mittheilungen, with maps and charts illustrative of Captain

Johnson's exploration, and also of those just made by Captain Altmann.

Among the most Important discoveries mede by Captain Nils Johnson were the fauna Europe, sent a letter of thanks to the electors of Provencher, Manitoba, for having remarkable fatness. The immense longitudidone him the honor of choosing him as their and piles of driftwood, which ran along the representative. The following is the Globe's "astern coast some twenty feet above the hightranslation of the principal portions of that condition of the Arctic Ocean, and also of the placed the skull, and making a slab from the document:—

The "Meadless Indian" of Lord

RIVER AND TAKEN SO MALIFAR.

We copy the following from the Hamilton Brown and Dr.

By the state of Viscount Miles and Dr.

Cheadle's interesting work on the North Cheadle's interesting work on the North the Meddless Indian" when the discovery of the Meddless Indian' when the party was on its way from Tete June Cache, by she North Thompson River, to tambogs. For sine days the six almost disheartened travellers had cut their way through fallen and tangled trees, over passes covered with houlders, and streams which, at times, carried them and their lives and their journey of desolution. Their Assimitheir streams are the lookers on while we run the race of life and fulfil its duties and responsibilities. The cloud is in the sky; the witnesses therefore look down upon us on the discount of militims, carried them and their lives and their journey of desolution. Their Assimitheir journey of desolution. Their Assimitheir feet, threatening to end their lives and their journey of desolution. Their Assimitheir feet, threatening to end their lives and their journey of desolution. Their Assimitheir feet, threatening to end their lives and their surveil, were growing disheartened as day after day passed, and starvation seemed any a desolution of travel, were growing disheartened as day after day passed, and starvation seemed any a desolution and the Doctor shared the guneral devices and the Doctor shared the guneral devices. The classical Mr. O'B. had almost given up the study of his Paley as he white and hemonaced his lot, while the Viscount and the Doctor shared the guneral devices. The classical Mr. O'B. had almost given up the study of his Paley as he with the study of his Paley as he with the study of the Paley as he with the lation of Dr. Petermana's circular announcing writer PRE-LAND TO THE RAST OF SPITZBERGEN MORE fire greated our eyes, Animal life was scarce

Captain Nils Johnson sailed on May 8, in the sailing yacht Lydions of twenty-six tons burden, with a crew of nine men, from back with only a merten and the significant higher and the other a lower floor, but under Frosoe, Norway. He directed his cruise in June toward the western half of this month, when guide, the Viscount and Dr. Cheadle, accommemory should be an absolute blank. The the Austrian exploring steamrhip Tegethoff panied by the boy, searched for and found the race here is not selected by us, but set before had just left the German coast, was already some fifty miles south-east of the islands of East Spitzbergen, in the middle of the usual who then looked on the sk-leton figure, had East Spitzbergen, in the middle of the usual position of the Polar stream, which generally carries an enormous mass of ice toward Spitzbergen and the Bear Islands.

In July and August of this summer the ice current held a more easterly course toward Nova Zembla and left the western half of the sea free from ice, as the reports already received from Captain Altmann at the end of August had announced.

Captain Johnson, who during July and the first half of August had been engaged in sticks. The cervical vertebre projected bare sticks. The cervical vertebrae projected bare and bony up to where the base of the absent skull had been, while the skin, dry, darkened ing. Afterwards a scene of great interest Spirsbergen bank, which reaches from the Bear Islands over four degrees of latitude toward the northeast, had at no no of August 16th pressed as far as 78 deg. 18 min. 46 sec north latitude and 30 deg. east longitude, and shortly thereafter came in sight of land, which first appeared upon maps in 1817 as Wiche Land, and which was then given as extending from 78½ deg. to 75½ deg, north latitude.

Skull had been, while the skin, dry, darkened and good and pleased interest the frame, showing its anatomy with prinful distinctness. A tattered woollen shirt and leggings still hung about the bony form. A small axe, fire bag containing flint, steel, tinder, a knife and a charge of shot tied up in a rag; a tin kittle and two birch baskets, the opportunity of reminding you that the tistudes.

Skull had been, while the skin, dry, darkened and good. Aft-rwards a scene of great interest was witnessed. Her Majesty, accompanied by the duchess left her seat, and walked up to Dr. Cumming, whom she addressed as follows:—"Dr. Cumming, whom she addressed as follows:—"Dr. Cumming, whom she addressed as follows:—"Dr. Cumming, with the discourse you have delivered, and I take the opportunity of reminding you that the discourse you have delivered, and I take the opportunity of reminding you that the latitude.

In the first and walked up to Dr. Cumming, whom she addressed as follows:—"Dr. Cumming, whom she addressed a Intitude.

The whole sea to the south and east of this land Captain Johnson found entirely free from ice on August 16th. On the 17th of August he anchored near the point of this bones of a horse's head lay at the skeleton's land after acknowledging it by bowing. land in no th latitude 70 deg. 8 min., and side. They were clipped into the smallest profoundly, he replied, "I rejecte that your east longitude 30 deg. 15 min., for the pur-Landing to explore the land which he was speculated at no small extent on the absence of the first to set a foot upon, he ascended a mountain near the coast, from which he obtained a view over a wide circuit. He thus tained a view over a wide circuit. He thus

> was in August, 1863. In June of the present year nine years after the Milton-Cheadle party found the Indian's remains, Mr. James Dickey, C. E., of Ambert N. S , son of Senator Dickey, while making the journey with his surveying party (R) on the proposed line of the Canadian Pacific Railway, from the Lenther Pass down the North Thompson, came upon the spot des-cribed by the English Viscount and doctor. The large pine referred to by them had been blown down, displacing the bones, which were partially scattered. A search was made for the missing head, and it was discovered about fifty yards from the spot where the trunk had so long lain. Not far from the Furniture, Groceries. prostrate tree some members of the party doubtless those of "Petit Noir," besides many other traces of the English party who had so nearly shared the fate of the skeleton Indian Mr. Dickey caused the Indian's remains, excepting the head to be decently interred on the spot, to the great satisfaction of the Inlowing incription :

"Here lie the remains of the Headless Indian, dis-covered by Lord Milton and Dr. Ctendle, in 1863. We found here a knife, tin kettle, spuon, and fish-ing-line, and fifty yards up stream, near the river, we also found the skull sought for in vain by the travellers.

The incription was signed by (R) party ton the route to Clearwater, 18th of June,

1872 The missing head was thus discovered by Nova Scotian, and though left in the lonely Northwest forest, where the bleak winds and the dashing Thompson stream sang a constant THE AMERICAN INTER-OCEANIC CANAL .- An requiem over the grave marked by its empty Inter-Oceanic Canal, connecting the Atlantic and silent dome, it has by a strange coinciand Pacific is an enterprise of such importance Nova Scotian, and is now perhaps the mest

WONDERFUL CURE OF ASTHMA OF 18 YEA

Sir,-I auffered from as'bma for 18. rears, accompanied with great difficulty

length pronounced by them to be beyond cure;—as a last tenource, I was induced ouse your Pills and Olarment, and in the short space of a fortnight could walk fliout, and am now p-rieetly cured, to the stonishment of all who knew me.

BLOOD TO THE HEAD WITH GIDDINESS. Copy of a letter from Mrs Mary Foster, Haif Moon Street, Tolness, dated March

leth 1861. To Professor Hollowsy.

Sir, - For many years I suffered periotiend, to such a degree that at times I have scare y been able to walk; after obtaining the last med cal advice without effect. or sending in such Tenders has been and is tried your Pills and in less than a week! was comple ely cared. Mrs. Donnal, Chemist, of Totness, can rouch for the truth of the above statement.

COMPLAINTS OF WOMEN AND CHILDREN. The very mild and painless action of these invaluable Pills, recon mends them to every honsehold as a remedy for the early departures from heaith. Any mothe er, norse, or young person guided by the direction which accompany each box of Hollowny's Pills, has at once available me us for checking disease, qualifying the blood, and expelling from the system all gross homors. They are, indeed, at all ages, the tried femiles friend.

DISORDERS OF THE KIDNEYS & OTHER IN-

Loss of appetite and flatulency are usually the forerunners of stomachie disand bowels; they restore a healtny fune. sheet tion to every internal organ, overcome all obstructions, and cast out all impu-

TERNAL ORGANS The immediate loss of muscular strength NOW KNOW YE that for divers causes and nervous energy is more particularly and considerations, and taking into consid- remarkable in remai than in most other with the advice of Our Executive Council of the Province of British Columbia, to relieve you, and each of you, of your attendance at ment. Holloway's Palls have the great ment. the time aforesaid; hereby convoking, and merit of restoring any suspended or discount by these presents enjoining you, and each of you, that on TUE-DAY, the SEVENTEENTH and find martion or congestion in the please will be a find martion or congestion in the please will be a find martion or congestion in the please will be a find martin or congestion in the please will be a find martin or congestion in the please will be a find martin or congestion in the please will be a find martin or congestion in the please will be a find martin or congestion in the please will be a find martin or congestion in the please will be a find martin or congestion in the please will be a find martin or congestion in the please will be a find martin or congestion.

The right, sufficating, anxious feeling caused by derangement of the heart. effici at and ready remedy when the die sturbed circulation depends on indigestion flatulency, or debilitated nervous vigor l'ersons suffering from dis prhance of the heart should take about six of these Pills two or three times a week, according to circamstances, to arrest the too active seion of the heart.

WEAKNESS, LANGOUR AND DERILITY. These famous Pills will immediately remove all symptoms of debility, languar and weakness as they act upon the main springs of life, and thus save thousands from premature grave
